Bulbs and Hand Pollenized Seed

1939 Seedling Introductions

'Battleflag' (35-65) (Marmora x Moorish King) A dark red that, however, is flashingly brilliant for a deep color, differing in this respect from any other deep red with which I am familiar. Spike and florets resemble Marmora with five to six 5 to 5½ inch florets open on fine straight spike 4½ to 5 feet tall. Its height and distinct color is suggestive of its name, for it stands out just as vividly in the field. Healthy grower and good propagator. 1-inch Bulbs, \$3.00; Small, \$2.00; Bulblets, 3 for \$1.00.

'Carved Ivory' (36-5) (Rosemary x Picardy) Sister seedling of Gaiety, but a clear warm white self. A round, wide petaled floret of very heavy substance. Five inch florets with five to six open on tall rugged spike. The floret and spike habits make this variety superior to any white on the market. Add to this that it blooms very early and you have a white that any cut flower grower will value. Healthy and a rapid propagator. 1-inch Bulbs, \$3.00; Small, \$2.00; Bulblets, 3 for \$1.

'Cynara' (35-38) (Erica Morini x Picardy) An unusual clear cerise pink self, with small blue toned throat mark. Up to six 5-inch florets open on tall and willowy straight stem, making it ideal for cutting. Its unusual and beautiful color and good stem have made a hit with local florists as well as other visitors. Healthy and strong grower and a very rapid propagator. 1-inch Bulbs, \$3.00; Small, \$2.00; Bulblets, 3 for \$1.00.

'Fantasia' (36-116) (Seedling x King Arthur) A melting medium pink self of irresistable color. Small deeper feather in throat; petals thick and very heavily ruffled. Up to six 4½ to 5 inch florets open on very straight spike. Not as tall as most of my other seedlings, but will average 3 to 3½ feet. Healthy and a fine propagator. Fantasia is larger than any other heavily ruffled pink I know. 1-inch Bulbs, \$3.00; Small, \$2.00; Bulblets, 3 for \$1.00.

'Gaiety' (36-61) (Rosemary x Picardy) Another variety which attracts first by its distinctively beautiful color. Crisp, glistening white which harmonizes rather than contrasts with the clear scarlet feathery blotch. The very heavy ruffling and thick substance add to its beauty. Five to six 4½ inch florets open in fine double row on tall straight spike, ideal for cutting. A variety which I feel outclasses anything else in similar color. Good grower and propagator. 1-inch Bulbs, \$3.00; Small, \$2.00; Bulblets, 3 for \$1.00.

'Jimgrim' (35-53) (Wuertembergia x Picardy) A huge flashing scarlet whose size and color are accented by the huge snowy white throat. Four to five 6 inch florets open on straight, medium tall spikes. This comes from a cross which, by report, has produced outstanding seedlings for three or four breeders, chief of which is F. O. Chamberlain's "Caroline Werner Gannett," a grand smoky which will make history. The huge florets and striking color of Jimgrim never fail to attract attention. 1-inch Bulbs, \$3.00; Small, \$2.00; Bulblets, 3 for \$1.00.

Fragrant Seedling Introductions

'Summer Breeze' (1938) (Seedling 36-22F) (Mibloom x Triumph) x (Mibloom x Mammoth White) A fragrant rich pink Prim Grand with heavily ruffled petals of heavy substance. Opens four to five 4 inch florets on a medium tall spike. Fragrance is sweet and rose-like, strong and persistent, throughout the day. A distinct advance in fragrant glads. Stock still scarce. Summer Breeze and Honeysuckle are not chance fragrant seedlings, but were developed by selective crossing with the direct aim of increasing fragrance, with the result that these two seedlings are the third successive generation in which fragrance appears. Healthy grower and good propagator. Large, \$5.00; Medium, \$3.50; Small, \$2.50; Bulblets, 10 for \$5.

'Honeysuckle' (1938) (Seedling 36-43F) (Sister seedling of Summer Breeze) Carries a spicy fruity fragrance like that of some hybrid tea roses. Not quite as fragrant as Summer Breeze. A deep pink with an orange tone, somewhat ruffled, good substance, four 4 inch florets open on a medium tall spike. Healthy grower and a rapid propagator. Stock limited. Large, \$2.50; Medium, \$1.50; Small, \$1.00; Bulblets, 10 for \$2.50.

'Joli' (1937) (Triumph x Mibloom) Sweetly and persistently fragrant. Fragrance is rose-like and noticeable within a few feet of the plant, constantly present during the entire blooming season of this variety. Color is light pink with a vivid orange-scarlet blotch. Five 4½ inch florets open on a tall slender stem. Good propagator, but stock is limited. This variety seemed more fragrant than ever this past season, the fifth season that we have had it in bloom. Pollen is fertile, but does not bear seed well. Large, \$3.00; Medium, \$2.00; Small, \$1.00; Bulblets, 10 for \$3.00.

'Seedling 34-2F' (1937) (Mibloom x Triumph) Light bright red self of Triumph type, but with more slender stem. Tall with four 4½ to 5 inch florets open. This past season this was much more fragrant than heretofore. One of the parents of Summer Breeze and Honeysuckle. Large, \$.50; Medium, \$.30; Small, \$.15; Bulblets, 10 for \$.50.

'Seedling 36-58F' (1939) Sister seedling of Summer Breeze. Not quite as fragrant but taller and our best red seedling showing fragrance. Opens six ruffled 4 inch florets on a 4½ foot spike. 1-inch Bulbs, \$1.50; Small, \$.75; Bulblets, 5 for \$.75.

'Seedling 37-2F' (Star of Bethlehem x Incense) Deep cream, lavender feather, fruity fragrance. Five medium sized florets open on very tall spike. 1-inch Bulbs, \$1.00; Bulblets, 5 for \$.50.

Former Seedling Introductions

‘Chrysalis’ (1937) (Albatross x Othello) A pale blue of clear sparkling color, with a small true blue throat mark. Strong grower, five feet tall, with up to nine 4½ inch florets open in good double row placement. An unusually fine exhibition variety in this color. Average propagator. Healthy grower. Chrysalis is invariably spotted by visitors in the field, for its clear color and striking spike. Large, \$3.00; Medium, \$2.00; Small, \$1.50; Bulblets, 10 for \$2.00.

‘Coralie’ (1937) (Mrs. Sisson x Coryphee x Nuthall) Glistening pure pink of rich tone. Throat shades a bit lighter with a thin pink thread line. Somewhat ruffled, wide open, round 6 inch florets. Five to six open on a tall willowy, but always straight spike. An unusually beautiful variety, a hoped for combination of the good points of its famous parents. Good propagator. Won a Vote of Commendation at the Maryland Gladiolus Society Test Garden in 1938. Large, \$2.00. Medium, \$1.50; 10 for \$12.00. Small, \$.75; 10 for \$6.00. Bulblets, 10 for \$1.50; 100 for \$10.00; 1,000 for \$50.00.

‘Euphony’ (1938) (Picardy x Wasaga) Shades of deepest apricot and salmon, almost tan, with a faint rose blotch. Mid-ribs touched with a deep lavender suffusion, back of petals flushed a smoky lavender. These colors blend with all the subtlety found in some of the newer iris blends, a feature not common in glads. Five 4 inch florets open on a good spike which, however, sometimes crooks. Florets somewhat ruffled. Very rapid propagator. Large, \$1.00. Medium, \$.75; 10 for \$6.00. Small, \$.50; 10 for \$3.50; 100 for \$25.00. Bulblets, 10 for \$.75; 100 for \$5.00; 1,000 for \$30.00.

‘Fortune’ (1937) (Moorish King x Rapture) Very deep rich pink of even tone. Heavy light red lines in throat. Six to seven 6 inch florets open in perfect placement on a 5½ foot spike. Extra strong and husky grower and never crooks. Heavy and lasting substance. Florets and spike have the general form and size of Picardy. Its large size makes it an exhibition variety but it has all the qualities of a perfect commercial, and promises to rank with Picardy, Minuet and Nuthall as a cut flower. Blooms about two weeks before Nuthall. Good propagator. Vote of Commendation, 1937, Maryland Gladiolus Society Test Garden. Large, \$3.50. Medium, \$2.00; 10 for \$15.00. Small, \$1.00; 10 for \$7.50. Bulblets, 10 for \$2.50; 100 for \$20.00; 1,000 for \$75.00.

‘Jacinth’ (1938) (Ramesses x Picardy) A warm orange blend with lavender suffusion which produces a captivating play of color. Six to seven wide open 4½ inch florets open on a fine straight spike. Makes a very reliable cut flower in this color class. Rapid propagator and healthy grower. Substance is heavy and lasting. Jacinth has given us some very fine seedlings in vivid orange and orange-yellow tones. Won a First in the Open Orange class at the Empire State Gladiolus Show at Syracuse this Summer, even though the spikes shown were from small bulbs and far from representative of this variety. Large, \$2.00. Medium, \$1.50; 10 for \$10.00. Small, \$1.00; 10 for \$7.50. Bulblets, 10 for \$1.50; 100 for \$10.00.

‘Joyance’ (1937) (Cadence x Mammoth White) Light pink with a slight lavender dusting in throat. Somewhat lacinated and winged florets, close to five inches across with five or six open on tall straight stem. Beautiful color and attractive form make an unusually appealing variety. Joyance is larger and makes a heavier and fuller spike than any other orchid type glad I know. Rapid propagator. Large, \$.50; Medium, \$.30; Small, \$.15; Bulblets, 10 for \$.15.

‘Man o’ War’ (1938) (A seedling of Com. Koehl and Mrs. Errey) A glad with a brighter and lighter color than Com. Koehl. Spike very tall and very straight and up to seven 5 inch florets open in very good arrangement, making an unusually well balanced spike. This was shown in the seedling class in 1936 at Ithaca, where it received an Honorable Mention, as well as much favorable comment from growers. A very strong and healthy grower, giving many bulblets which germinate easily and make unusually large growth. I believe this will prove a valuable cut flower as well as an exhibition variety. Large, \$3.50; Bulblets, 10 for \$3.50.

‘Mauve Royale’ (1937) (Moorish King x Rapture) An unusual color in glads, in fact, in any flower. A very rich royal mauve self with a small white throat. The color is many shades deeper than any mauve that I know and hard to visualize without seeing. Very large florets between 5 and 6 inches with five or six open on a medium tall stem, which as a bad habit of crooking, especially from larger bulbs. Bulblets bloom freely on good sized and straight spikes. In breeding for lavenders and mauves this has proven a reliable parent, the striking point in these seedlings being the huge size inherited from Mauve Royale. Large, \$.30; 10 for \$2.50. Medium, \$.20; 10 for \$1.25. Small, \$.10; 10 for \$.75. Bulblets, 10 for \$.25; 100 for \$1.50.

‘Nola’ (1937) (Marmora x Apricot Glow) An unusually deep pink with no trace of rose, white midribs on lower petals. Five inch florets with six to seven open on a tall, husky, straight spike. Another variety that has all the requisites of a perfect cut flower. Very rapid propagator. I noted a pleasing color variation in this variety this Summer, for many spikes showed a soft gray throat blotch, which made a most unusually and attractive color combination. Large, \$.35; 10 for \$2.50; 100 for \$20.00. Medium, \$.20; 10 for \$1.50; 100 for \$10.00. Small, \$.10; 10 for \$.75; 100 for \$5.00. Bulblets, 10 for \$.15; 100 for \$1.00; 1,000 for \$7.50.

‘Seven Seas’ (1938) (335-101) An unusually attractive tone in the medium blue shades with a very subdued throat make of same shade on slight white feather. A slightly deeper flecking as well as a suggestion of blue green blend in its ground color gives the appealing effect of sea green depths. Spike is tall and straight with up to seven 5 inch florets open in very fine double row arrangement. Its color and spike habits make Seven Seas the best cut flower blue I know. Another very valuable feature of Seven Seas is its ability to stand up perfectly under heat intense enough to cause every other blue that I know to wilt badly. Rapid propagator and very healthy grower. Large, \$3.50; Medium, \$2.50; Small, \$1.50; Bulblets, 10 for \$3.

‘Shalimar’ (1937) (Cuthbertson x Mammoth White) A huge pure white with a rich green yellow blotch which fades after flower opens. Grows larger with us than Star of Bethlehem, but like that variety its stem is a bit too limber to support the flower head when eight immense florets are open. Round wide open florets, somewhat ruffled. Thick heavy substance. Blooms well from medium and smaller sizes. Large, \$1.50. Medium, \$1.00; 10 for \$5.00. Small, \$.50; 10 for \$3.50; 100 for \$25.00. Bulblets, 10 for \$1.00; 100 for \$7.50; 1,000 for \$40.00.

‘Vanguard’ (1937) (Cadence x Triumph) Ruffled light orange salmon, at times somewhat lacinated. A very early bloomer of unusual keeping qualities, remaining in fresh cut condition for three days. Five to six 4 inch florets open on slender and graceful but strong and perfectly straight spikes. Altogether a very promising early cut flower blooming about ten days after Mibloom. Rapid propagator. Large, \$.35; 10 for \$2.50; 100 for \$20.00. Medium, \$.20; 10 for \$1.50; 100 for \$10.00. Small, \$.10; 10 for \$.75; 100 for \$5.00. Bulblets, 10 for \$.15; 100 for \$1.00; 1,000 for \$7.50.

Special Collections

We are offering the following collections, mostly of the newer introductions, at collection prices that offer attractive savings. Order collections by number.

- Collection No. 1—\$5.00 value for \$3.50—1 medium each: Coralie, Shalimar, Euphony, Jacinth and 2 medium Nola.
- Collection No. 2—\$3.00 value for \$2.00—Small bulbs of same varieties in Collection No. 1.
- Collection No. 3—\$8.00 value for \$6.00—1 small each: Gaiety, Carved Ivory, Jimgrim and Cynara.
- Collection No. 4—\$4.00 value for \$3.00—2 bulblets each: Battleflag, Carved Ivory, Fantasia, Cynara, Gaiety and Jimgrim.
- Collection No. 5—\$4.50 value for \$3.75—1 small each: Summer Breeze, Honeysuckle and Joli.
- Collection No. 6—\$2.10 value for \$1.75—2 bulblets each of varieties in Collection No. 5.
- Collection No. 7—\$3.50 value for \$2.50—2 bulblets each: Amrita, Barcarole, Komiri, Royal Gold, Tunia's Triumph, Wings of Song, Phar Lap, Red Giant, Rewi Fallu, Abe, and 1 small bulb Fortune.
- Collection No. 8—\$3.00 value for \$2.00—1 small bulb each: Beowulf, Isola Bella, James Fitzjames, Robert Burns, Sahara, The Bounty and Coralie.
- Collection No. 9—\$4.80 value for \$3.00—1 medium bulb of same varieties as in Collection No. 8.
- Collection No. 10—\$4.00 value for \$3.00—2 large bulbs each: Beacon, Leschi, Cherokee, Prairie Gold, Takina, Vagabond Prince, Whero, Blaue Schonheit, and Euphony.
- Collection No. 11—\$3.00 value for \$2.00—Same varieties and amounts as in Collection No. 10 but in medium bulbs.

Seedling Collections

We are offering the following collections of seedlings under number. These are all still on trial and some will undoubtedly be introduced. We are offering these in two grades, the first group containing seedlings of unusual quality; the second group containing seedlings which stand less chance of being introduced.

Seeding Collection S-1:

- 10 large bulbs, all different, labeled under number, \$1.50
- 25 large bulbs, all different, labeled under number, \$3.00

Seedling Collection S-2:

- 10 large bulbs, all different, labeled under number, \$1.00
- 25 large bulbs, all different, labeled under number, \$2.00

Discounts — 10% on orders of \$5.00 to \$10.00; 15% on orders over \$10.00. These discounts do not apply to collections. Extras — You will find our count and extras generous.

All bulbs have been treated with Naphthalene flakes in storage. A new location with a sandy well-drained soil has given us the cleanest and the most disease-free bulbs we have ever grown.

Premium Bulbs

On all orders of \$5.00 we will add a blooming size bulb of Rimmon, one of our seedlings which will be listed next year at \$3.00. On all orders of \$10.00 a blooming size bulb of Rendezvous, another seedling which will be listed next year at \$5.00. Neither of these is for sale this year.

'Rimmon' (336-50) is a very tall deep velvety rose-red with 6 to 7 ruffled 4½-inch florets open. This received an Honorable Mention at Ithaca in 1936.

'Rendezvous' (36-137) (Inspiration x Picardy) is a lovely buff-pink with a deeper edge, resembling Lotus in color, but opening 10 to 12 in perfect double row arrangement, making a perfect cut flower.

Matoaka

This is one of our seedlings being introduced exclusively by F. L. Worcester of Richglad Gardens, Richmond, Virginia. Mataoka impressed Mr. Worcester so favorably when sent to him for trial some years ago that he purchased the entire stock. This year on trial in various sections of the country it received high praise and is apparently headed for the top in the black-red class. If you like the dark colors we suggest that you send for Mr. Worcester's catalog.

Hand Pollenized Seed

It will be noted that we are listing in the seed section a greater number of seedlings which are classed as fragrant to a greater or lesser degree. This is due to the successful results of interbreeding related seedlings showing fragrance as well as using the variety Incense with our own fragrant varieties. We feel that the seed we offer from these fragrant varieties is something out of the ordinary, for these latest fragrant varieties represent four successive generations of fragrant seedlings. In fact in a number of crosses bloomed this past summer the majority of seedlings showed some degree of fragrance, showing that fragrance is becoming a fixed character in this strain.

Mixed Seed from hand pollenized crossings. These are from crosses that gave only small amounts of seed which were all put into a mixture, but which is equal in quality to the numbered crosses. 15 seeds \$.25; 40 seeds \$.50, 100 seeds \$1.00.
Special Seed Mixture all from fragrant variety crosses. 10 seeds for \$.35, 25 seeds for \$.75.
Discount. On all seed orders over \$5.00 a 10% discount.

Descriptions of Seedlings
USED IN ABOVE CROSSES

38-1 (Minuet Seedling x Rosemarie Pfitzer). Heavily ruffled pale lavender; exquisite color; fine spike. 38-2F (Joli x Summer Breeze) Strongly fragrant light pink. 38-3F (Joli x Summer Breeze) Fragrant pink. 38-4F (Summer Breeze x Incense) Deep pink; strong fragrance. 38-12F (Summer Breeze x Picardy) Large light pink somewhat fragrant. 38-14F (Joli x Summer Breeze) Pink fragrant. 38-16F (Summer Breeze x Honeysuckle) Pink, slight fragrance. 38-17 (Vagabond Prince seedling) Heavily ruffled flashing red, tall and strong. 38-18F (Summer Breeze x Joli) Orange pink; one of the most fragrant new seedlings. 38-19F (Summer Breeze x Picardy) Large pink, slight fragrance. 38-21F (Summer Breeze x Picardy) Large pink, good fragrance. 38-29F (Summer Breeze x Incense) Tall pink, strong fragrance. 38-40 (Miss New Zealand x Mauve Royale) Very large deep mauve. 38-36F (Joli x Summer Breeze) Pink fragrant. 38-42 (Chrysalis x Blue Admiral) Light blue of heavy substance. 38-53 (Picardy x 36-17) Clear apricot self, Picardy size and shape. Extra. 38-57 (Vagabond Prince seedling) Huge brick red. 38-63 (Arabella x Bill Sowden) Large black red, tall. 38-64 (Vagabond Prince x Whero) Fine bright red. 38-67 (Vagabond Prince x Whero) Light blue gray smoky with large cherry blotch. 338-1 (Picardy seedling) Clear bluish pink; 8 open on heavy spike. 338-5F (Incense seedling) Very fragrant yellow prim grand. 38-S-2 (Ramesses seedling) Huge lavender, very heavy petals, with heavy ruffling. 6-inch florets on 5-foot spike. Extra.
35-80 (Triumph x Errey) x Lucifer) Large rich brown smoky; red blotch. 36-S-3 (Apricot Glow x Ramesses seedling) Tall cream and pink; heavy ruffling and heavy substance. 36-17 (Probably Picardy seedling) This resembles Picardy closely, but is two to three weeks earlier; gives good seedlings. 36-21 (Miss New Zealand x Palmer 26896) Very large ruffled rose pink; fine 36-S-22 (King Arthur seedling) Resembles its parent, but tall with more open. 36-87 (Rosemarie Pfitzer seedling) Clear white; 6 to 7 open; tall. 36-137 (Inspiration x Picardy) Beautiful pink buff; 10 open. 36-151 (Star Prince x Seedling) Tall large pastel lavender. 36-163 (Fine large medium blue, very good spike; 6 open. 36-172 (Clear pale blue, tall strong spike. 36-177 Resembles 36-17 and from the same lot of seedlings. 36-191 (Picardy seedling) A deeper orange pink, but resembling Picardy; 10 open. 36-196 (Debonair x Mammoth White) Color and form duplicate of Debonair, but 6-inch florets; 8 open. 36-207 Resembles Mother Machree but pinker and brighter; 8 open. 336F5 Huge lavender; H. M. at Ithaca 1936. 336-38 Brilliant orange scarlet of Triumph type; fine spike. 336-50 Deep rosy red, tall and ruffled; H. M. at Ithaca 1936. 336-53 Tall white, straight spike; 10 open.
37-7 (Miss New Zealand x Rosemarie Pfitzer) Fine pink self; 7 to 8 open. 37-15 (Miss New Zealand x Golden Goddess) Fine clear yellow, large and tall, 7 to 8 open. 37-85 (Golden Goddess x Gate of Heaven) Deep rich yellow, tall good spike. 337-25 (Wuertembergia x Picardy) Bright light red, huge white blotch; 5 feet tall. 337-54 (Picardy seedling) Bright pink, tall spike, 10 to 12 open. Extra.
36-114 (Blue Ruffles) An exceptional blue, combining ruffleness with an unusually attractive medium blue color.

Lily Seeds and Bulbs

Among a number of Regale lilies I raised from seed that I bought when the Regale was still a newcomer, are a number which grow unusually tall and give unusual numbers of blooms. They differ so much in these respects from the average Regale that I've come to believe that these are natural hybrids of Regale. The seed that I offer below was all taken from the one most outstanding lily of this group. Plant is full five feet tall, stem at base over an inch in diameter and a single stem has carried as many as 66 buds at one time; a most unusual and striking plant. This seed grows easily from Spring sowing.

35 seeds, \$.25 100 seeds, \$.50

Hybrid (Regale x Tenuifolium) A group of hybrid lilies which with one exception resemble more vigorous Tenuifoliums, up to three feet tall with as many as 30 florets. The one exception is an extremely vigorous seedling, three and one-half feet tall with 40 orange Tenuifolium-like florets. Bulbs of the above hybrids are much larger than the usual Tenuifolium bulb, indicating the Regale parentage. Second generation seedlings from the above seed may show more Regale characteristics with a chance of a red or orange Regale-like seedling appearing.

Seed from best red seedlings of this group 50 for \$.25

Seedling Bulbs of above group, 1 year seedlings:

10 for \$.35 25 for \$.75 100 for \$2.50

These seedling bulbs show variation, both in color and shape, indicating that variation may be expected in color in the blooms.

Seedling Bulbs

These were grown from the bulblets produced with the seedling bulbs from seed. None of these offered for sale have bloomed, so no selections have been taken from them. Sizes will run from medium to small.
